

THE REVOLUTION OF WIRE DRAWING

LINNOX

LINNOX THE INNOVATIVE DRAWING MACHINES FOR FINE AND EXTRA-FINE WIRE

Our product innovation LINNOX sets new standards in combination with state-of-the-art automated guided vehicle systems such as payoffs and take-ups. Thus we reach an unprecedented quality in wire production for our customers.

- Steel wire beginning from a finished diameter of 0.06 mm
- Highest productivity
- Unique drive concept
- Products free from residual stress
- Installation without foundation
- Low energy consumption
